5 **Table S1.** Terms employed in the systematic search performed on 15/07/2022 using *ISI Web of Knowledge* as the source for identification of relevant peer reviewed studies.

7 *Términos empleados en la búsqueda sistemática realizada el 15/07/2022 utilizando ISI Web of Knowledge como fuente para la identificación de estudios relevantes revisados por pares.*

Purpose	Terms employed in the search
To describe urban impacts on stream ecosystems	<i>river OR fluvial OR stream AND land use change OR watershed degradation OR urban- OR industrial OR impervious OR anthropogenic</i>
To include main taxonomic groups of benthic organisms	<i>community OR structure AND biofilm OR periphyton OR microb- OR algae OR bacteria OR fungi OR protozoa OR macroinvertebrates</i>
To include main ecosystem functions	<i>decomposition OR cycling OR respiration OR product- OR enzym-</i>
To exclude non-diffuse pollution, agriculture, non-benthic organisms, and marine ecosystems	<i>NOT effluent OR estuary OR coastal OR wastewater OR WWTP OR sewage OR plankton OR marine OR seawater OR bioremediation OR ponds OR wildfires OR agricult-</i>
